The *Sustainable Energy MBA Fellowship* would focus on providing instruction in the areas of marketing, management, finance, ethics, leadership and entrepreneurship. MBA Fellows would apply business theory and develop business plans for sustainable energy ventures.

Do you currently have an idea for a sustainable energy related venture?

Yes

No

How developed is the idea?

What area of the sustainable energy industry will you be targeting?

There are many ways that entrepreneurs can make positive contributions toward a green energy future. The selection committee will consider ideas related to products and services in the sustainable energy arena.

Without divulging any intellectual property or trade secrets, tell us a little about your big idea.

What problem will you solve?

Why do you want to earn a Master of Business Administration Degree?

How many hours per week can you commit to graduate study?

Have you reviewed the Apeiron Institute for Sustainable Living website?

Yes

No
